

How to Swirl Press

We have used the Sunset Canoes block in the example because it has 9 opportunities to practice swirl pressing. These are enlarged drawings from where the pressing occurs in Month 11, The Romance Continues Block of the Month. Apply these pressing considerations where they are appropriate in other patchwork blocks.

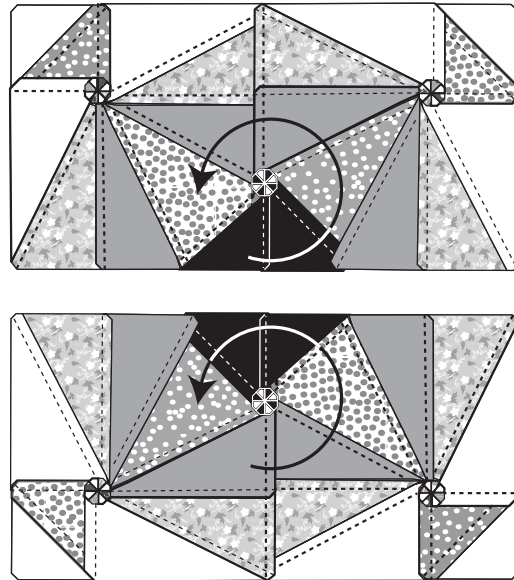

Making the Quarter-Blocks, Step 3.

Swirl-press the four quarters clockwise.

Completing the Block, Step 1.

Swirl-press the two halves counter-clockwise.

Completing the Block Step 2.

Swirl-press the center clockwise. Complete the pressing at the remaining two points where 6 pieces come together (not all these pieces will go in the same direction).
